Subject: Thanks

On this morning's Dimock call, Ron Borsellino asked me to pass on his thanks and appreciation for your work on this site.

I will add my own thanks and appreciation. Many of you have either put in countless hours of time and effort...or some of you "jumped" when I asked you to get something done quickly. Some of you did both. For that, I thank you!

This was not an easy site in many ways...but the satisfaction I draw from it is that we did our best to remain true to our mission and provided some help to the citizens of Dimock. You should know that when I delivered their data packages and letters, all four of the residents where we provided water made it a point to thank me for our help. They do appreciate what help we could offer

As you know....we still have some work ahead to close things out...so this won't be the last email on Dimock. But I wanted to make sure I passed on Ron's sentiments and add my own at this time.

Thanks.

Rich
